**Supplemental Program Guidance on IEHP P4P Required Data Contributions to MX**

Hospitals participating in Manifest Medex (MX) are required to comply with MX’s Data Submission Guidelines (DSGs) as part of their participation agreement with MX. The purpose of this document is to identify the IEHP P4P data requirements that are above and beyond the MX DSG. Hospitals participating in the IEHP P4P program should use the information below as a companion to the MX DSG to identify which data fields are required in addition to those already required by the MX DSG. These data fields must be consistently populated in data sent to MX in addition to the data fields required by MX’s DSG.

Please refer to the document **IEHP P4P 2021 Data Guidelines** which outlines the MX HL7 data requirements and thresholds for IEHP P4P 2021.

[Note: Data fields in Blue are new measures for 2021, and exceptions for the new measures have been granted for Q1 and Q2 of 2021.](#)
