

Volunteers Needed!

Riverside County Health Corps

**Sign Up
Today!**

The COVID-19 pandemic is not over and Riverside County still needs medical volunteers: Physicians, Residents, Medical Students, Nurses and Medical Assistants.

In the coming days/weeks we are asking ALL healthcare workers to rise to the challenge and volunteer their time and talent to our impacted communities across Riverside County.

In collaboration with Riverside County Department of Public Health, Riverside County Medical Association (RCMA) is calling on you to respond. Please take a moment to complete survey below and we will contact all submitters with opportunities to help in the areas most needed. Thank you for helping us during this very difficult time.
